Items of Interest Picked Up About the Line City.

United States customs blanks for sale at THE VIDETTE office.

Sunday night Mayor F. F. Cranz returned home from a business visit to Douglas.

The story told by Stenographer Cooper entitled "The King's Last Ball" is the most interesting of the season. Ask him to tell it.

Julius Kunde, one of the county's most prosperous stockraisers, has this week been at the county seat, being a witness in the Jerry Sheehy murder case.

Miss Annie Parker of Parker's Canyon, this county, is visited in the city, the guest of Councilman J. C. Gates and wife at their cosy Crawford street home.

L. Strom, well known in Nogales, was a visitor in the line city several days this week from Guaymas, where for more than twenty years he has engaged in business.

This week "Luck" Mark Lulley has been out in the Santa Rita mountains looking after his extensive mining interests. The gentleman has another deal on the tapis. Hope he'll make it.

Hon. W. F. Cooper, official court report for Judge Davis, has been a busy man in district court this week. Mr. Cooper is prominently mentioned as candidate for delegate to congress on the Republican ticket this fall.

Levin & Griswold have received a handsome new "Reliance" automobile and their numerous friends are standing around the street in "bunches," waiting for an invitation to "hit the high places." The new machine is indeed a beauty; it cost \$1,500.

The Times is now receiving a nice grist of daily telegraph dispatches from the Western Associated Press Association. Editor Pellegrin's efforts to give his readers the latest news—both local and foreign—are appreciated by patrons of that wide-awake little daily.

This week Mr. J. L. Shepherd, president of the Tri-Metallic Mining Company, has been a business visitor in Sonora, where the big properties owned by his company are located. Mr. Shepherd now makes Nogales his home. His mother lives with him.

Senator Eugene Ives of the law firm of Smith & Ives, has this week been a prominent figure in the district court. Senator Ives is one of Arizona's best criminal lawyers; he is here in the interest of the men accused of the looting the late International Bank.

Judge W. M. Lovell of Tucson is attending district court. He is attorney for Jerry Sheehy, who is in the county jail charged with having murdered Richard Harrison at a round-up near Lochiel several months ago. Judge Lovell is a first-class criminal lawyer of many years experience.

J. A. Straith, the mining man and assayer, came in from the Endless Chain mines Monday evening to serve as a trial juror. Mr. Straith reports a recent strike of good ore at the Endless Chain mines which are being developed under the management of Harper J. Cunningham of Oklahoma. The properties are looking fine.

Mr. Alex. Joffroy, member of the firm of Brady-Levin Commission Company, was not in town last Saturday when Levin & Griswold "gave away" that "red devil" of an automobile, but he got the machine just the same. It cost him 25 bucks, only, and when he gets home from Guaymas he will be asked to explain "how he did it."

Hon. D. G. Chalmers, Democratic statesman and politician of Lochiel, has been a welcome visitor at the county seat this week. He came, to attend district court and the meeting of the Democratic county central committee held Wednesday evening, of which committee he is a member. Judge Chalmers has for many years been a most enthusiastic and faithful Democratic worker. The party has honored him many times.

Last Saturday evening Mr. A. V. Jillings, a prominent Bisbee business man returned from a visit to mining properties near Llano, Sonora, in which he and other Bisbee gentleman are financially interested. The gentleman expressed himself greatly pleased with the properties and carried a good report to his associates. Sunday morning he left for the big copper camp where arrangements will be made to develop and operate the mines on an extensive scale.

Saturday night Mr. H. Jordan, efficient and popular local agent of the Southern Pacific, returned to Nogales from his well-earned summer's vacation spent on the Pacific coast with relatives. He was greatly benefited by his outing and reports having had a delightful visit. At Los Angeles Mr. Jordan met many people well known in this city. Mr. and Mrs. Charley Kleemann, formerly of Nogales, now residents of Mexico City, are in the city of angels, where they had gone for the benefit of Mr. Kleemann's health.

Monday evening the remains of Mrs. F. Rodriguez, who died in a Los Angeles hospital last Saturday, and a little baby, only two days old, arrived in the city, accompanied by the sorrow-stricken husband and father. The funeral took place Tuesday afternoon at 4 o'clock, from the family residence in Nogales, Arizona, interment being in the Catholic cemetery in Nogales, Sonora. The heart-felt sympathy of the entire community goes out to Mr. Rodriguez and his two little orphan children, who are left to mourn the loss of a loving young wife and mother, whose sad and untimely passing is deeply regretted by all.

Mr. R. Zellner, the Los Angeles piano man, was in town Monday and Tuesday looking after his extensive business interests here. Wednesday morning he went south to visit different points in the state of Sonora where he does business. The Zellner Piano Company lost four fine pianos in the Globe flood last week, which caused the death of seven persons and the destruction of about \$20,000 worth of property. The big piano house also got caught in Nogales last June, when the S. P. depot burned down, to the tune of three pianos. Notwithstanding his hard luck, Mr. Zellner continues to look on the bright side of life and is hustling harder than ever to sell pianos.

Word comes from the "Joplin" mines in the Tyndal mining district, Santa Rita mountains, that development work is showing the old mines up in fine shape, a splendid new ore body having recently been encountered. The "Joplin" was boned a short time ago by "Lucky" Mark Lulley and associates to E. C. Mallette, representing the Springfield-Arizona Company, a corporation formed under the laws of Arizona, the price stipulated being the small sum of \$20,000, \$1500 of which was paid when the contract was signed and turned over. It now looks as though the old "Joplin" will again become a good producer and a source of revenue to all parties interested as well as the county.

Monday B. O. Kischell of Tucson, secretary of the Labor Day Celebration which will be held in the ancient and honorable pueblo, was in Nogales billing the town with attractive flammers. The celebration will be held September 3rd and 4th and promises to be a great event. The railroad companies will sell round-trip tickets for one fare or half price. Many people from Nogales expect to attend the celebration.

Mr. Bracey Curtis, the efficient accommodating cashier of The First National Bank of Nogales, returned home Sunday evening from an extended pleasure and business trip in the east, most of which was spent at his Old Boston home. Mr. Curtis reports having had a pleasant and successful trip. He looks it. During the absence of Cashier Curtis all persons desiring the "long green" had to "see Mr. Schuckmann," vice-president of the bank.

Frank Proctor, general manager of the Greene Cattle Company, was a visitor in the city several days this week, having driven over from Lochiel where he spends much of his time these days. The gentleman is well and favorably known in the line city. It is said the big cattle company of which he is manager have leased 400,000 acres of grazing land on the Cheyenne Indian reservation in Wyoming, which they are now stocking with cattle. A number of shipments have already been made to ranges in Missouri. With the abundance of feed and water we now have in Southern Arizona and Sonora we see no reason why stock should be shipped to outside points, until they are ready for the market.

General Torres En Route to St. Louis.

General Luis E. Torres, commanding the Mexican federal forces in Sonora and a veteran of many Yaqui campaigns, was here Thursday en route to St. Louis where he will visit the exposition.

General Torres' trip was delayed by the recent uprising of Yaquis in the country north of Guaymas and he is fresh from the scene of that trouble, having left Colonel Barron, an old and experienced officer, in command of the troops guarding the towns, ranches and roads of the section of country where the Indians have been committing depredations.

"I anticipate no further trouble with the 'mansos' or tame Indians who have been causing the recent troubles near Guaymas," said General Torres, "as the extreme measures we pursued with those found guilty of complicity in the attacks have proven a lesson to their fellows. I feel that the only solution of the Yaqui question of Sonora is the ultimate deportation of all members of that race to Yucatan, and as fast as possible we are carrying out that policy. If Indian labor is needed on the ranches, the Yaquis can be replaced by the more peaceful Mayos who dwell in southern Sonora and northern Sinaloa."—Tucson Post.

Greene Placers.

Jtm Wilkie is in Douglas from Greene's big placer camp on the San Domingo. This camp will be one of the greatest gold producers in Sonora inside of a year. The pay dirt lies in the bottom of a deep canyon and is under a layer of river wash.

The paystreak is from two to eight inches thick and is exceedingly rich. The waste covering the gold will be removed and the pay collected by a hydraulic system. For a time the work of installing the machinery has ceased, owing to the recent high water. As soon as the rainy season ends the work will be resumed with renewed vigor. The company is financed by some of the wealthiest men in the east, and is an exceedingly strong one. Mr. Wilkie will go from here to Bisbee and Cananea.—International American.

No Wonder He Is Insane.

A writer in the Port England Mirror, a newspaper published by lunatics in an asylum at Graham town, South Africa, gives the following reasons for his detention:

"I met a young widow with a grown step daughter and the widow married me. My father, who was a widower, met my step-daughter and married her. That made my wife the mother-in-law of her father-in-law, and made my step daughter my mother, and my father my step son. Then my step-mother, the step daughter of my wife, had a son. That boy was, of course, my brother, because he was my father's son. He was also the son of my wife's step daughter, and therefore her grandson. That made me grand-father to my step-mother. My wife had a son. My mother-in-law, the step sister of my son, is also his grandmother, because he is her step-son's child. My father is the brother-in-law of my child, because his step sister is my wife. I am the brother of my own son, who is also the child of my step-grand-mother. I am my mother's brother-in-law; my wife is my own child's aunt; my son is my father's nephew, and I am my own grand-father."

To Build Salt Work.

News comes from Mexico City that J. C. Bothin is soon to return to Guaymas, Sonora, where he proposes to erect a great salt refinery of the finest class. It is a concession for the use of superior machinery for making the highest grade of salt that Mr. Bothin has been asking. He has a lease on Carmen Island on the Pacific coast with its salt lake. He has also acquired a concession for a salt deposit about 3 1/2 miles east of Guaymas close to the Sonora railroad; La Providencia is another deposit on the coast of the Altar district which he proposes to exploit.—Chihuahua Enterprise.
